*SOME POSSESSIVE PHRASES IN SWEDISH: THE HAVE RELATION*

*The article presents a structural and semantic overview of the possibilities of Swedish to express relationships between referents based on the have relation as a subtype of the superordinate correlation relation. The article also provides an account of the morphological and lexical means of expressing the relation, as well as the possibility to substitute morphological means by periphrastic expressions and vice versa.*

*Keywords: Swedish, HAVE relation, possessive phrases, definite article, contrastive, Bulgarian*
