*ABOUT THE SCOPE AND THE CLASSIFICATION
OF THE CHREMATONYMS IN BULGARIAN AND CZECH*

During the last 25 years in the Bulgarian language and Czech language the area of proper names is distinguished by enhanced dynamics. Particularly active processes occur in the field of the chrematonymy, or chrematonomastics. The purpose of this article is to compare the interpretation of the concept 'chrematonym' in the researches of Bulgarian and Czech, to give reasons for introducing the term 'ambimodal names' in Bulgarian linguistics, and to outline the area that falls within the two terms.

Keywords: onomastics, chrematonyms, ambimodal names, Bulgarian language, Czech language
