**THE AORIST AND IMPERFECT TENSES  
IN SERBIAN AND BULGARIAN LANGUAGES – MEANING AND USES**

*Abstract:*

This paper aims at showing the place of the Aorist Tense and the Imperfect Tense in some of the grammars of Serbian and Bulgarian – the tenses that are different in meaning and frequency of usage in both languages. The differences in approaching the tenses, as well as those within the existing and currently used tenses in Serbian and Bulgarian offer an incentive to a more profound study.
