### *THE IMAGES OF SLAVIC ENLIGHTENERS IN MACEDONIAN LITERATURE: POETICAL PALIMPSEST AND LITERARY CULT*

*This article is part of a research on modern literature in Northern Macedonia (1945- present). The poetical works dedicated to Holy Seven Saints (Heptarithmoi/ Sedmotchislenitsi) are analyzed and their imagery, functionality and individualization are focused on. The topoi – Ohrid, the lake, the monastery play a crucial role for the situating of the images. Most of the works are dedicated to the regional cult of St. Kliment. The images in the Macedonian literature stand out with their patency, fragmentation, and mythology.*

*Keywords: St. Sedmotchislenitsi, St. Kliment of Ohrid, St. Naum of Ohrid, Contemporary Macedonian literature, poetry*
